Peter Lobaczewski
Spring Moon Signs

Dear Peter:

It was a pleasure working with your firm on the installation of room identification signage in the Business Instructional Facility on the campus of the University of Illinois at Urbana-Champaign in the fall of 2008. Certainly, your challenge was greater than simply installing signage throughout the 160,000 square foot facility, but in doing it in a tight time window before 4,000 students arrived for their first day of classes in the new building. I think it's a testament to our collective efforts that students easily found their way to every destination.

As I've communicated to you previously, I was impressed not only with the quality of the materials, but with the professionalism of your installers, particularly Casey, who showed equal concern for our beautiful facility as for the signage they installed.

I would be happy to recommend your firm's products and services to other large clients, and thank you for your efforts.

Best regards,

Tracy G. McCabe
Assistant Dean for External and Alumni Affairs
